

# What is it & why should I do it?

How to gain better insight into the groups of people you want to cater to, and the kind of needs they have, is a fundamental question for every project or organisation. This tool is a quick and easy way to work out an overview and develop an understanding of the different people your work might reach, and the resources you need to do so.

**Target Group** is probably best used when you are trying to work out some initial ideas about who you want to cater to, and why. It is also a nice and effective way to share this information with others.

## ? HOW TO USE IT

Fill out the worksheet by considering what the needs are of the type of people or organisations you are catering to. Continue with adding notes to describe the potential groups that may be interested in your work, or who may benefit from it. Also try to think about other people or organisations who might also benefit from, or have interests/needs that can be connected to your work. These could be different from your customers.

You can fill out different worksheets for different groups. By using this worksheet you can build a picture of the potential groups of beneficiaries. Do try to also fill out the more exact fields at the bottom. This will help you to get a more concrete sense of the figures involved.

It is useful to add names or brief descriptors for each of the beneficiary groups. If you don't have a name already, think of one that represents the group in a useful way for your organisation. Naming these groups makes it more easy to discuss with your team or other stakeholders. You can do this informally, for instance with friends or colleagues. You can also do it more formally, as part of a meeting with partners or investors. Ideally you could also talk to your customers and other beneficiaries who are in contact with your work, so you can check your assumptions.

TARGET GROUP

WHAT DO YOU CALL THIS GROUP?

The fishing enthusiasts

CAN YOU DRAW THEM? (OR STICK A PICTURE  
HERE THAT REPRESENTS THEM)

WHAT ARE THEIR NEEDS?

Locals need a new income system, something new that could bring jobs and opportunities in the area using the natural environment of the zone such as the river and the woods that follow the Elk River.

Fishing enthusiasts coming from other counties instead want a different experience, somewhere new where they can fish different species and enjoy a new area different from the ones they usually go to

WHAT ARE YOU OFFERING THEM?

A service that will facilitate the organization and the building of an infrastructure for fishing enthusiasts using modern technologies, this would create new job opportunities (such as local guides, fishing instructors, boat rentals, ecc...) for the locals and allow the outside tourists to easily come to the Elk River and enjoy a weekend without the stress of organizing everything by themselves.

HOW MANY ARE
